The Summit Difference

SUMMIT
HR & PAYROLL

Here's what makes us different than the "BIG" guys

Single point of contact across all core services

By talking to the same person for payroll, HR and time & attendance you get straight answers, quicker response time and no finger pointing. You save time and headaches by talking with someone who knows and cares about you and your company.

Integrated technology

When data management is seamless and behind the scenes, you avoid having to enter data multiple times, eliminate manual processing steps and ensure accuracy across systems. This empowers you to provide in depth analysis across platforms.

Cloud based management

With everything hosted offsite you avoid IT headaches, mitigate security concerns and ensure real time access to all your data 24/7. You no longer have to wait for payroll to complete or other technology quirks in order to get the information you need.

Employee self service

When employees can view and print paystubs, W2's, timesheets and other selected information, your life instantly becomes easier. Additionally, you can save time by streamlining vacation requests, posting company documents and automating benefits enrollment.

Workflow management

By adapting our system to fit your processes, we give you greater flexibility and control over how things get done. As tasks are automated you regain control over compliance ensuring that items are completed in a timely manner.

Streamlined pricing

By giving you a complete and clear picture of what you will be paying for, there are never any hidden surprises that get in the way of us providing you with what you need. You can be confident that every time you call for something you aren't going to be quoted another price.

Our Mission: *Summit delivers reliable HR & Payroll Services by fostering relationships between our clients and our empowered team of employees.*
